October
National Geographic Society | National Geographic Society/Waitt Grants Program | Funds projects that require venture capital, supporting exceptional projects while foregoing a time-consuming peer-review process. NSF/Waitt grants are able to fund "proof of concept" research among applicants at an earlier stage in their careers than other NSF grants. Applications seeking support solely for laboratory work or archival research will not be considered. Grant recipients are expected to provide National Geographic with rights of first refusal for popular publication of their findings. | $5,000 - $15,000 | Open

National Science Foundation (NSF) | Interface Between Computer and Social Sciences | Seeks proposals that will develop tools to bridge data collection and dissemination by first, collecting and coding metadata associated with future waves of the ANES, GSS, and PSID surveys as collection and processing techniques evolve; and second, migrating (or "retrofitting") metadata associated with earlier (i.e., legacy) waves of these surveys into formats and schema that are compatible with current and future collection efforts. The goal is to fund projects that will help make the many years of legacy data available to researchers who seek to access current scientific questions. | $500,000-$1,000,000 | January

National Science Foundation (NSF) | Marginality for Long-standing Large-Scale Social Science Surveys (MLSS) | Funds interdisciplinary research and education projects that develop new knowledge at the interfaces between these disciplines. Projects that advance only one field are not of interest. | $400,000-$1,000,000 | November through December

National Science Foundation (NSF) | Cultural Anthropology - Senior Research Program | Supports individual, team, or collaborative research. The Cultural Anthropology Program supports basic scientific research about the causes, consequences, and complexities of human social and cultural variability. Because the National Science Foundation’s mandate is to support basic research, the NSF Cultural Anthropology Program does not fund research that takes as its primary goal improved clinical practice or applied policy. Up to $100,000 per year | January and August

National Science Foundation (NSF) | Cultural Anthropology - Faculty Scholars Program | Supports methodological training for cultural anthropologists who wish to learn new skills that are needed as part of an ongoing research program. The Cultural Anthropology Program supports scientific research about the causes, consequences, and complexities of human social and cultural variability. Because the National Science Foundation’s mandate is to support basic research, the NSF Cultural Anthropology Program does not fund research that takes as its primary goal improved clinical practice or applied policy. | Up to $50,000 | January and August

National Science Foundation (NSF) | Decision Risk Management Sciences | Supports scientific research directed at increasing the understanding and effectiveness of decision-making by individuals, groups, organizations, and society. Disciplinary and interdisciplinary research, doctoral dissertation research, and workshops are funded in the areas of judgment and decision making, decision analysis and decision aids; risk analysis, perception, and communication; social and public policy decision making; management science and organizational design. The program also supports small grants that are time-critical and small grants that are high-risk and of a potentially transformative nature. Funded research must be grounded in theory and generalizable. | $100,000 per year | January and July

National Science Foundation (NSF) | Developmental Learning Sciences (DLS) | DLS supports fundamental research that increases our understanding of cognitive, linguistic, social, cultural, and biological processes related to children's development and learning. The program is accepting proposals for individual investigator projects (average total budget of approximately $100,000 per year) and workshops/symposia conferences (average total one-time budget of approximately $15,000). | $100,000 per year | January and August

National Science Foundation (NSF) | Economics Program | Supports research designed to improve the understanding of the processes and institutions of the U.S. economy and of the world system of which it is a part, and supports research in almost every area of economics. The program places a high priority on interdisciplinary research. The program also funds conferences and interdisciplinary research that strengthens links among economics and the other social and behavioral sciences as well as mathematics and statistics. | $5,000 - $20,000 | January and August

National Science Foundation (NSF) | Law and Social Science Program | Supports scientific studies of law and law-like systems of rules, institutions, processes, and behaviors. Proposals are welcome that advance fundamental knowledge about legal interactions, processes, relations, and diffusions that extend beyond any single nation as well as about how local and national legal institutions, systems, and cultures affect or are affected by transnational or international phenomena. Supports research within a single nation or between or across legal systems or regimes. | $5,000 - $15,000 | January and August

National Science Foundation (NSF) | Political Science Program | Supports scientific research that advances knowledge and understanding of citizenship, government, and politics. Research proposals are expected to be theoretically motivated, conceptually precise, methodologically rigorous, and empirically oriented. Substantive areas include, but are not limited to, American government and politics, comparative government and politics, international relations, political behavior, political economy, and political institutions. | $5,000 - $15,000 | January and August

National Science Foundation (NSF) | Science, Technology, and Society (STS) Program | Funds basic research on all forms of human social organization – societies, institutions, groups and demography – and processes of individual and institutional change, and encourages theoretically focused empirical investigations aimed at improving the explanation of fundamental social processes. Includes research on organizations and organizational behavior, population dynamics, social movements, social groups, labor force participation, stratification and mobility, family, social networks, socialization, gender roles, and the sociology of science and technology. Supports both original data collections and secondary data analysis that use the full range of quantitative and qualitative methodological tools. | $32,500 – $65,000 | August and February

National Science Foundation (NSF) | Sociology Program | Supports basic research on all forms of human social organization – societies, institutions, groups and demography – and processes of individual and institutional change, and encourages theoretically focused empirical investigations aimed at improving the explanation of fundamental social processes. Includes research on organizations and organizational behavior, population dynamics, social movements, social groups, labor force participation, stratification and mobility, family, social networks, socialization, gender roles, and the sociology of science and technology. Supports both original data collections and secondary data analysis that use the full range of quantitative and qualitative methodological tools. | $32,500 – $65,000 | September and August

Radcliffe Institute for Advanced Study | Fellowships for Creative Artists, Humanities, and Social Sciences | Residential fellowship support scholars, scientists, artists, and writers of exceptional promise and demonstrated accomplishment who wish to pursue work in academic and professional fields and in the creative arts. The Radcliffe Institute sustains a continuing commitment to the study of women, gender, and society, however applicants' projects need not focus on gender. Visual artists and film, video, sound, and new media artists may apply to come for either one or two semesters. | Up to $20,000 | October

GRAMMY Foundation | Scientific Research Projects Grant Program | Supports social scientific studies of law and law-like systems of rules, institutions, processes, and behaviors. Proposals are welcome that advance fundamental knowledge about legal interactions, processes, relations, and diffusions that extend beyond any single nation as well as about how local and national legal institutions, systems, and cultures affect or are affected by transnational or international phenomena. Supports research within a single nation or between or across legal systems or regimes. | $5,000 - $20,000 | October

GRAMMY Foundation | Archiving and Preservation Projects | Grants to organizations and individuals to support efforts that advance the archiving and preservation of the music and recorded sound heritage of the Americas. The Archiving and Preservation area has two funding categories: Preservation Implementation; Planning, Assessment and/or Consultation. | $5,000 - $20,000 | October

Smith Richardson Foundation | International Security and Foreign Policy Program: Junior Faculty Research Grant Program | Supports junior faculty research on American foreign policy, international relations, international security, military policy, and diplomatic and military history. Grants support tenure-track junior faculty engaged in the research and writing of a scholarly book on an issue or topic of interest to the community, to buy-out up to one year of teaching time and to undertake research costs (including research assistance and travel). Projects in military and diplomatic history are especially encouraged. | $60,000 | October

United States Institute of Peace (USIP) | Annual Grant Competition | Supports peacebuilding projects managed by non-profit organizations including educational institutions, research institutions, and civil society organizations engaged in research, the identification of promising models and effective practices, the development of practitioner resources and tools, the development and delivery of education, training and dialogue programs, and the production of films, radio programs, and other media. | $60,000 - $120,000 | October

United States Institute of Peace (USIP) | Priority Grant Competition | Funds activities that enhance mechanisms for advancing the knowledge and practice of conflict prevention, conflict management, and post-conflict peacebuilding in Afghanistan, Iraq, Pakistan, Sudan, and on the theme of communication and peacebuilding in identified priority areas. Applicants from outside a priority country must partner with a nonprofit organization located within the priority country and the project must be based in the priority country. | $45,000 - $140,000 | April
